## TENSIODES OXY N

SMART AND FAST READY-TO-USE SOLUTION  
FOR VENTILATION SYSTEMS

Ready-to-use cleaner and disinfectant

Very broad disinfecting effect

Fast and highly effective

Biocide Approval number: 16240N

### Description

- Ready-to-use cleaner and disinfectant based on hydrogen peroxide and ethanol.
- Very broad disinfecting action. Developed to combat bacteria, yeasts, fungi and viruses.
- Ready to use. Do not dilute Tensiodes Oxy N any further.
- Works quickly (1-2 minutes) and particularly effective at both ambient and cold conditions (5°C).
- Authorization to not rinse with water after use. If desired, excess product can be absorbed with a clean, dry cloth.

### Available packaging

Art. n°	Packaging	Content (kg)
07719	Jerrycans - 20 liter	20
07998	Drums - 200 liter	200
07707	IBC's - 1000 liter	1000

IN THE SPOTLIGHT

# TENSIODES OXY N

SMART AND FAST READY-TO-USE SOLUTION  
FOR VENTILATION SYSTEMS

## Tensiodes Oxy N on evaporators

- Cleaning evaporator blocks is not easy and is often done only once a year.
  - \* This is one place that can cause contamination.
  - \* Leak plates and drains are often gathering places for microbiology.
- To prevent cross-contamination, it is important to head off any contamination.
- For this purpose, Tensiodes Oxy N is ideal. It will immediately kill any bacteria present.
- Please note! This is an interim solution and does not replace cleaning.

## Instructions for use

1. Turn off the evaporation/ventilation system.
  2. Spray inside of the evaporator block (heat exchanger, walls and drip plate), fans and their structure with Tensiodes Oxy N. Make sure that the slats are well sprayed.
  3. Allow to soak in for 5 minutes.
  4. Restart evaporator.
- \* A good starting frequency is a weekly disinfection of the blocks with Tensiodes Oxy N.
  - \* Samples will need to be taken to further optimize this procedure.

## Accessories

Art. n°	Description
07735	Back Sprayer battery powered 15 L
07995	Telescopic Spray lance 3 M
07891	Telescopic Spray lance 5 M
